Sea in winter

Sea in winter too! LONDAs just equipped some of its flats of central heating and its managed to offer you short journeys (min. 2 nights), during the winter months too. Sea in winter, with its silences, fogs, open spaces, the slow passing by of time, has a very particular and undescrivable charm. A long walking on the shore, when the cold wind blows and makes you close your coat. Losing through the desert and foggy streets. It can remind you of memories and sensations, which can seem not to belong more to our lives, stressed by the traffic, the appointments, the commitments always more

rushed. Winter is the best season to visit and to take a picture of our hinterland. Marshes, waters spots, the Po Delta, are unique landscapes, where you can admire migrating birds, which find in our marshes, an ideal place of rest. Autumn and spring are the better season to visit and to take a picture of our territory.

The lagoons, water spots, the Podelta, are unique landscapes, where you can watch (through bird-watching stations) migrating birds, which find in the lagoons and ideal place to rest. Nautical, cycling and on horseback itineraries, are the best opportunity to know our territory, which is still unknown and will certainly surprise the visitor.
